Notes to the Roche Capital Market Ltd, Interim Financial Statements

Reference numbers indicate corresponding Notes to the Interim Financial Statements. The Interim Financial Statements are unaudited. The Interim Financial Statements have been reviewed by Roche Capital Market Ltd's auditors and their review report is presented on page 7.

1. Accounting policies

Basis of preparation of financial statements

These financial statements are the unaudited interim financial statements (hereafter 'the Interim Financial Statements') of Roche Capital Market Ltd, (*Roche Kapitalmarkt AG*), a company registered in Switzerland (hereafter 'the Company') for the six-month period ended 30 June 2010 (hereafter 'the interim period'). The Company is 100% owned by Roche Holding Ltd, (*Roche Holding AG*), a public company registered in Switzerland. Roche Holding Ltd, is the parent company of the Roche Group, and therefore the Company is a member of the Roche Group.

The main activity of the Company is the provision of financing to other affiliates of the Roche Group. Refinancing takes place on the bond or loan markets. During the first half of 2009 the Company resumed its financing activities on behalf of the Roche Group and issued bonds, which are guaranteed by Roche Holding Ltd, the parent company of the Roche Group (see Note 4). The Company subsequently entered into new financing arrangements with other members of the Roche Group (see Note 3).

The Interim Financial Statements have been prepared in accordance with International Accounting Standard 34 (IAS 34) 'Interim Financial Reporting'. These Interim Financial Statements should be read in conjunction with the Financial Statements for the year ended 31 December 2009 (hereafter 'the Annual Financial Statements'), as they provide an update of previously reported information. They were approved for issue by the Board of Directors on 19 July 2010.

The Interim Financial Statements have been prepared in accordance with the accounting policies and methods of computation set out in the Annual Financial Statements, except for accounting policy changes made after the date of the Annual Financial Statements. The presentation of the Interim Financial Statements is consistent with the Annual Financial Statements, except where noted below.

The preparation of the Interim Financial Statements requires management to make estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the disclosure of contingent liabilities at the date of the financial statements. If in the future such estimates and assumptions, which are based on management's best judgements at the date of the Interim Financial Statements, deviate from the actual circumstances, the original estimates and assumptions will be modified as appropriate in the year in which the circumstances change.

The Company has only one operating segment and undertakes its operation in Switzerland. Therefore no segment reporting is included in these financial statements.

Income tax expense is recognised based upon the best estimate of the income tax rate expected for the full financial year.

Changes in accounting policies adopted by the Roche Group and, consequently, by the Company

In 2010 the Roche Group, and consequently the Company, implemented various amendments to existing standards and interpretations, which have no impact on the Company's overall results and financial position.

The Roche Group is currently assessing the potential impacts of the other new and revised standards and interpretations that will be effective from 1 January 2011 and beyond, and which the Roche Group has not early adopted. The Company does not anticipate that these will have a material impact on the Company's overall results and financial position.

Issuance of bonds - 2010

The Company did not issue any bonds during the interim period of 2010.

Issuance of bonds - 2009

Swiss franc-denominated bonds: On 23 March 2009 the Company issued Swiss franc fixed rate 4.5% bonds due 23 March 2017 with a principal amount of 1,500 million Swiss francs. The net proceeds were 1,475 million Swiss francs and the effective interest rate is 4.77%. These bonds are guaranteed by Roche Holding Ltd, the parent company of the Roche Group.

5. Equity

Share capital

The authorised and issued share capital of the Company consists of 1,000 shares with a nominal value of 1,000 Swiss francs each and has not changed during the interim period. All the shares are owned by Roche Holding Ltd, a public company registered in Switzerland.

Dividends

There were no dividend payments in the interim period (2009: none).

Own equity instruments

The Company holds none of its own shares (2009: none).

6. Contingent liabilities

As of 30 June 2010, the Company does not have any material contingent liabilities (2009: none).

7. Related parties

Controlling shareholders

As a member of the Roche Group, all of the Company's related party transactions are with Roche Group affiliates. The transactions include interest on and repayments of loans given by the Company. In addition the Company has a current account with Roche Pharmholding B.V., the corporate cash pool leader, as described in Note 6 of the Annual Financial Statements.

Review Report of the Statutory Auditor

To the Board of Directors of Roche Capital Market Ltd, Basel

Introduction We have been engaged to review the accompanying condensed balance sheet of Roche Capital Market Ltd as at 30 June 2010 and the related statement of comprehensive income, condensed statement of cash flows and statement of changes in equity for the six-month period then ended, and selected explanatory notes (the interim financial statements) on pages 1 to 6. The Board of Directors is responsible for the preparation and presentation of these interim financial statements in accordance with International Accounting Standard 34 'Interim Financial Reporting'. Our responsibility is to express a conclusion on these interim financial statements based on our review.

Scope of Review We conducted our review in accordance with International Standard on Review Engagements 2410, 'Review of Interim Financial Information Performed by the Independent Auditor of the Entity'. A review of interim financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim financial statements as at 30 June 2010 are not prepared, in all material respects, in accordance with International Accounting Standard 34 'Interim Financial Reporting'.
